## Seraphim Blueprint – One Day Workshop

189 Stone Hill Road is pleased to offer the 6 levels of the Seraphim Blueprint. Each level is delivered in a one day workshop from 10am to 6pm and will be scheduled with a minimum of 4 participants. The cost for each workshop is \$190 per person plus HST and includes the workshop fee and lunch.

### What is the Seraphim Blueprint?

The Seraphim Blueprint is a cosmological collection of energies that are permanently stored in the ethers. The Seraphim that created this system chose to give out these energies in a specific sequence that harmoniously integrates with our nervous systems. The system includes 11 major energies that synergistically interact to enhance our life-force energy and well-being. Each major energy has its own purpose and distinct quality and together they provide a unique evolutionary pathway for Self-Realization. The energies are safe and intelligent and are pre-programmed to ideally adapt to our unique life situation and physical condition. They work on all levels of our physical, emotional, mental and spiritual bodies.

The six Seraphim Blueprint levels are taken in sequence. Through a series of energetic initiations that are received into the body, the energies either work in the background to heal you, or are actively invoked through our intention to switch them on. The energies are given to individuals in simple, relaxed, workshops and are extremely easy to use. They form a sequence and the six levels build upon each other to expand and develop our bodies and our consciousness as we progress through the system.

### ***The Seraphim Blueprint Levels:***

**Level I - Seraphim Healing-** This level heals us physically and emotionally, laying the foundation for spiritual growth. The first two powers are for healing one-self and others. Being initiated into these energies allows for a sense of greater internal union and a stronger immune system.

**Level II - Seraphim Sacred Geometry-** This level is about breaking down karmic boundaries that limit our accomplishments in this lifetime. The key energies enhance rapid evolution. One is the supreme organizing power of the universe, and the other is the power to progressively remove karmic limitations.

**Level III - Seraphim Manifestation-** This helps us to more quickly to achieve our personal desires as well as cosmic purpose. Receiving fulfilment on a personal level allows us to aspire to higher goals. The two key powers promote intent, willpower and wish fulfilment.

**Level IV - Seraphim Cosmic Splendour -**This level helps us to adjust to the real cosmic forces that our bodies experience as our planet hurls through space at thousands of miles per second. This level maximizes the use of the physical vehicle to the expanding universe. Our individual bodies are holographic pieces of the entire universe. One energy repairs the damaged parts in our holographic etheric bodies, and the other helps us to adjust to an expanding universe.

**Level V - Seraphim Planetary Healing-** This level gives us tools to communicate with non-physical beings who can partner with us to help this planet in its many transitions. This energy brings humanity into balance with the natural order. Specific initiations include harmonizing with elementals and vibratory beings.

**Level VI - Seraphim Grace and Union** - Once we have cleared out the heavier dross that we have accumulated over lifetimes, we begin to feel a real need to absorb beauty in our environment, and feel closer to Source. The energies in this workshop facilitate that process.

## *The Seraphim Blueprint Q&As:*

### **Since I don't usually feel energy work very much, will I feel the Seraphim Blueprint initiations?**

The feeling and sensing of energetic initiations is a truly individual process and each person is different. Not everyone can immediately feel the Seraphim Blueprint energy initiations, although the sensitivity to them can grow with time and regular use. It is not essential to feel or notice the energies in your body for them to be working on your behalf. The Seraphim Blueprint teachers will guide you through the use of the energetic initiations so that you are confident of their action on your behalf even if you do not sense a lot of energy.

### **How is this system different from Reiki?**

The first level of the system, Seraphim Healing, contains initiations that enable us to give several healing frequencies either to self, or others via hands-on-healing, either with direct contact, or at a distance. This is where the similarity to Reiki ends. The Seraphim Blueprint energies are switched on through your intention, and consist of more than one very powerful healing frequency. In addition, the Seraphim Blueprint healing energies do not require the use of symbols to activate, or enhance their activity. Also, encompassed in the six levels of the Blueprint are many more energetic initiations that go beyond healing. They are a thorough, comprehensive collection of frequencies designed to assist us in the expansion of our consciousness, the enhancement of our manifestation ability, and the stabilization and repair of our energetic fields. All of the Blueprint is directing us on our journey to the oneness with Source.

### **Is there some special reason why the Seraph wants to bring these energies out now?**

The Seraph has indicated that the use of these energies is important at this time to aid in the energetic upgrade of the earth's vibration, including the consciousness of her human inhabitants. We are in a process of significant change on a conscious and energetic level, and the more people receiving these Seraphim Blueprint energies, the more we are assisting in this positive transformation.

### **How will the Seraphim Blueprint personally benefit me?**

The Seraphim Blueprint initiations are designed to build on each other, in an evolutionary sequence, beginning with fundamental physical and emotional healing. Even just completing the first level of the system, called Seraphim Healing, the benefits to you and your family will be immense in terms of healing ailments, and allowing for emotional flow, releasing stress and trapped energy in your body. The upper levels of the Blueprint will begin to expand the consciousness of your reality, working in the background to slowly alter and shift your awareness to encompass more and more truth at ever increasing levels. Initially this change will be largely at the level of your perception, but many have reported that they have more energy, are more clear in their thinking and more connected to themselves after receiving the energies.

### **Do you have to have done any previous healing courses to do the Seraphim Blueprint?**

No. Not at all.
